MEMORANDUM FOR: Chief of Operations, DDP

SUBJECT: Focal Point for Contacts with Atomic Energy Commission

1. Focal point, within the DDP, for contact with the Atomic Energy Commission is the Scientific Operations Branch, whose chief is Miss Eloise Page. The Branch functions under the general supervision of the FI Operations Division. Miss Page has maintained an excellent working relationship with the Division of Security of the Atomic Energy Commission and with the Office of Intelligence of that Commission, for the past seven years. It is our understanding with Mr. [] of the CI Staff that Mr. [] of that Staff will be Miss Page's point of contact, and that Miss Page will keep Mr. [] fully advised on all matters coming within her purview which appear to have a CI aspect. When matters concerning the Security Division of the Atomic Energy Commission arise within CI Staff, Scientific Operations Branch prepares the necessary papers in behalf of the CI Staff and these are coordinated through, and released by, that Staff.

2. It should be noted that the Nuclear Energy Division of OSI works with the Atomic Energy Commission on estimates, which do not come within the purview of Miss Page's office.
